

Product Stewardship Policy
of
Jasmine Technology Solution Public Company Limited

Effective on December 16, 2024

Product Stewardship Policy

Jasmine Technology Solution Public Company Limited and its subsidiaries (hereinafter referred to as the “Company”) are committed to becoming a leader in end-to-end technology solutions. The Company places great importance on the responsibility for its products, services, and solutions, ensuring compliance with established principles for prevention, promotion, and sustainable development in these areas. The responsibility for products, services, and solutions is an integral part of the Company's Business Code of Conduct. This commitment extends to all business partners, including direct and indirect service providers (tier 1 and non-tier 1), as well as key business alliances both domestically and internationally. The policy framework is outlined as follows:

1. The Company shall establish policies, strategies, and operational guidelines related to product, service, and solution responsibility, ensuring alignment with legal and international standards, being reviewed and approved by the Board of Directors.
2. The Company shall continuously allocate resources to support responsible product, service, and solution management. A comprehensive development plan and design criteria shall be implemented to ensure quality, safety, and compliance with national and international regulations.
3. The Company shall promote and support environmentally friendly procurement practices to encourage the use of sustainable products and services, taking into account the environmental impact and safety of products, services, and solutions throughout their life cycle.
4. The Company shall assess and select business partners and strategic alliances that align with its Product Stewardship Policy.
5. The Company shall conduct regular audits, monitoring, and assessments of product, service, and solution responsibility initiatives. Continuous improvements shall be made to enhance operational efficiency.
6. The Company shall support and collaborate with stakeholders across the value chain, including government and private organizations, academic institutions, communities, and other relevant entities, to advance responsible product, service, and solution practices.
7. The Company shall actively communicate and raise awareness regarding product, service, and solution responsibility among employees, business partners, consumers, and stakeholders.

Policy Review

The Sustainability and Risk Management Committee shall conduct an annual review of the Product Stewardship Policy. Any revisions or amendments to this policy must be presented to the Board of Directors for approval.
